REAL VALUE STARTS WITH GENUINE PARTS

Starting April 1st 2026, we're making Genuine Defender Classic Parts better value than ever.

We are bringing prices down by an average of 40% across 1,500 parts for Defender models built before 2016. Our intention is to better support your business, strengthen the value you offer customers, and ensure Genuine Parts remain the first choice for every Defender restoration and repair. This realignment is the first step in a wider programme of enhanced affordability across the Classic range.

Why use Genuine Land Rover Parts.

Genuine Parts cannot be matched by alternative OE options. Engineered to the original specifications, they ensure every Defender maintains its true integrity, performance and longevity. Each part is backed by a 2-year warranty, giving you and your customers complete confidence and peace of mind.
